March 28, 2018

Dear Neighbor:

Beginning on April 9, 2018, Bancker Construction will begin a water utility improvement project in your area on behalf of the Water Authority of Great Neck North. Bancker will begin installing facilities in various locations, but beginning along Shore Drive, Cedar Drive and Clover Drive.

Because of the character of the neighborhood, Bancker employees will work along with all residents to assist in their ingress and egress from their homes during this construction period if necessary. Flaggers will help control thru traffic during work hours. No water service will be disrupted to residents during this work, however, water connections will cause brief disruptions later in the project. You will be notified well in advance of any work or service disruption at your home.

Local village elected officials as well as fire and police authorities have been notified of the planned work. We anticipate the work the installation of the water main, to take approximately three to four weeks in any general vicinity. Additional work will follow as crews install tie-ins.

A foreman will be on the job site daily and will address ANY emergency situation that might involve required ingress and egress from the area. Bancker Construction is working hand in hand with local officials to try and minimize the disruption and expedite the activity.

If you have any questions, please feel free to contact me directly at 631-582-8880 x-165. I look forward to working with you and your neighbors to make sure that this capital improvement project goes as smoothly as possible.

Sincerely,

Tracy Burgess Levy  
Bancker Construction
